Inflammatory Rheumatism Immediately Relieved

Morton L. Hill, of Lebanon, Ind.,
says: "My wife had Inflammatory
Rheumatism in every muscle and
joint; her suffering was terrible and
her body and face were swollen almost
beyond recognition; had been in bed for
six weeks and had eight physicians, but
received no benefit until she tried DR.
DETCHON'S RELIEF FOR RHEUMAT-
ISM. It gave immediate relief and
she was able to walk about in three
days. I am sure it saved her life." Sold
by Smith's Corner Drug Store, Main Street.

FOR THE CHILDREN

Table Rules for Little Folks.

In silence I must take my seat
And give God thanks before I eat.
Must for my food in patience wait
Till I am asked to hand my plate.
I must not scold nor whine nor pout
Nor move my chair or plate about.
With knife or fork or anything
I must not play, nor must I sing.
I must not speak a useless word.
For children should be seen, not heard.
I must not talk about my food
Nor fret if I don't think it good.
I must not say, "The bread is old."
The tea is hot, the coffee's cold."
I must not cry for this or that
Nor murmur if my meat is fat.
My mouth with food I must not crowd
Nor while I'm eating speak aloud.
Must turn my head to cough or sneeze
And when I ask say, "If you please."
The tablecloth I must not spoil
Nor with my food my fingers soil.
Must keep my seat when I have done
Nor round the table sport or run.
When told to rise then I must put
My chair away with noiseless foot
And lift my heart to God above
In praise for all his wondrous love.

A Brave Mother Rat.

A cat that lives at one of the police
stations in New York city went nosing
about in the basement and found a
nest full of baby rats. She started in
to eat them, but the mother rat came
out of the dark and jumped at the in-
truder. There was a little fight, and
then the cat backed out. She went
upstairs and got another cat, and the
two went down to the basement. It
needed more than two cats, though.
The rat beat off both her enemies and
followed them upstairs and out into the
street. Somebody set a dog into the
fight, but the dog got tired after he
had been bitten a few times, and he
gave up the fight, like the cats. The
rat was victorious, but she had been
hurt so much in the battle that a po-
liceman shot her to put her out of
pain, and then the baby rats, of
course, had to be drowned.

The Bluebird.

There is an old Indian legend that
the bluebird was a piece of the sky
which came down to live on earth.
It surely looks as if this were true,
for his head, back, wings and tail
have the lovely blue color of the
spring sky on a sunny day. Though
he is now really a bird of the earth,
the bluebird seems to enjoy getting
back as near the sky as he can, and
we often hear his call come floating
down when he is so far above as to
be out of sight.
The bluebird is not entirely blue.
Indeed, he is said to be the most pa-
triotic of birds, for his colors are red,
white and blue. With the blue above
and with a red breast and white un-
derneath, the little fellow surely
seems to be doing his best to display
our nation's colors. The soft warble
of the bluebird is one of the most de-
lightful signs of spring.

Glass Sandpaper.

"There is no sand in sandpaper,"
said the manufacturer. "It is a pow-
dered glass that does the business.
That's where the broken bottles go." He
nodded toward a pile of broken bot-
tles in the yard. "We powder the
glass into half a dozen different
grades," he said. "We coat our paper
with an even layer of hot glue. Then,
without loss of time, we spread over
the glass powder. Finally we run a
wooden roller lightly over the sheets
to give them a good surface. When,
in the past, sandpaper was made of
sand it wouldn't do a quarter of the
work glass paper does."

Conundrums.

Why is a baby like wheat? Be-
cause it is first cradled, then thrashed
and finally becomes the flower of the
family.

What is that which is sometimes
with a head, without a head, with a
tail and without a tail? A wig.

When are tailors and house agents
both in the same business? When
they gather the rents.

Why are the tallest people the laz-
iest? Because they are always longer
in bed than others.

What class of women are apt to
give tone to society? The belles
(bells).

The French Scholars.

According to a recent college profes-
sor, three French boys were studying
"Hamlet," and their task was to ren-
der the soliloquy "To be or not to be"
from French into English.

This is what the professor read on
the three respective papers:

"To was or not to am."
"To were or is to not."
"To should or not to will."

Now you, my friends who study
French, can say to them "It serves you
right."

About the Sloth.

A sloth will feed on the leaves, buds
and young shoots of a single tree
without once descending from the
branches so long as food lasts, though
sometimes it will pass from one tree
to another if it can do so without go-
ing to the ground. Instead of walk-
ing on the branches it swings beneath
them with its back downward. Its
coarse, shaggy hair looks like grass
withered in the sun and gives it such
an appearance that it cannot be read-
ily seen except when in motion.

The Civil War.

The dates officially recognized as the
beginning and the end of the civil war
are Jan. 9, 1861, when the United
States steamship Star of the West was
fired on by state troops in Charleston
harbor, and April 3, 1865, when the
president proclaimed the rebellion at
an end.

Small farms are the rule in Porto
Rico, 42,004 being of less than twenty
acres each. Only 207 are of 1,000 acres
and over and only 332 are of from 500
to 999 acres. Owners operate 49,779
farms, of which 45,398 are free of
mortgages. The tenant farms number
10,398 and 1,203 are run by managers.

Linen breeches were worn by men
in 1491 B. C. They also at that period
wore embroidered coats, besides bon-
nets "for glory and for beauty." Suc-
culent cucumbers were eaten by
the Egyptians in 1500 B. C. Juicy
melons formed a part of their food
supply, too, and occasionally they
enjoyed a few onions.

20 Per Cent is Worth 1-5 to You!

We have been selling Monuments and Tombstones in Newport
and surrounding country for several years. We have always sold them
in best grades and at prices as low as any competitor. But, we sold
them through agents and as some people know, a tombstone agent gets
from 20 to 25 per cent.

Since we have made a change, we find it better to give the cus-
tomer or purchaser the 20 per cent thereby saving him one-fifth the
price and selling him direct that he is pleased better and we get more
business.

This is our own idea and it is taking with the people. We are
selling more than ever before, the people are buying cheaper and every
one is pleased.

When in need of anything in this line, don't forget us as it will
cost you more money for the same goods at any other place.
